

Parents from the Fort Worth, Euless, and Grand Prairie campuses in attendance at the luncheon were joined by local business leaders, professors, and deans from numerous universities with whom HSA has developed collaborative relationships, including TCU, TWU, TCC, UTA, and Tarleton State. Other organizations with attendees included the Education Service Center for Region XI, the Texas High School Project, the Chamber of Commerce, city officials, and the office of the Commissioner. The luncheon was a great success and served as a time to celebrate all the leaders of our community, of our school, and leaders in local business that support our unique educational model, and the future of hope and promise it aspires to for every student at Harmony Science Academy.
